Course Calendar Description

This course is the second of two designed to provide first year Financial Management students with a general understanding of the nature, purpose and general procedures of accounting. Completion of this course with an acceptable grade gives the student transfer credit to the courses offered by the three professional accounting bodies in B.C. as well as other professional bodies such as those for financial planners and managers.

- Every attempt has been made to have the assignment schedule lag considerably behind the lectures. However, on occasion this may not always be the case.
- Students who wish to master Accounting are encouraged to do extra problems.
- Students are required to bring their textbook to the labs but not lectures.
- Please keep this course outline in case you need credit from another institution in the future.
