COURSE OBJECTIVES

An introductory course designed to provide the student with an overview of the marketing concept and how it can be applied to any type of organization or service.

Material covered includes the controllable and uncontrollable elements of marketing, strategy planning, market characteristics, marketing research techniques, marketing segmentation and target market selection.

COURSE OUTCOMES

- 1. Apply the marketing concept and the components of the marketing mix in evaluating a marketing plan.
- 2. Recognize the non-controllable elements of the marketing environment and how they impact upon the marketing program.
- 3. Explain the need for overall strategic business planning.
- Prepare the components of a basic marketing plan.
- 5. Investigate marketing research:
 - a. Describe how marketing research information aids in decision making and risk reduction.
 - b. Demonstrate a familiarity with secondary resources used in marketing decision.
 - c. Explain how to use research methods in developing marketing strategies.

COURSE OUTCOMES (cont'd)

- Explain the consumer buying process and the multiple influences on consumer buying behaviour.
- Use a step by step analysis to identify target markets through marketing segmentation.
- 8. Explain key product concepts: product differentiation, positioning, branding, and the new product development process.
- 9. Investigate various promotional channels: advertising, sales promotion, direct marketing, personal selling, public relations, publicity.
- 10. Explain different pricing methods and factors that can be used to set prices.
- 11. Choose the most effective distribution channel for moving a product through the distribution system.
