STUDENT INFORMATION ON POLICIES AND PROCEDURES

COURSE OUTLINES: This course outline may assist you in the future to receive credit for all or part of a course from another post-secondary institution or from a professional program. It is strongly recommended that this course outline be safely filed for future reference.

EXAMINATIONS: Recently there has been a greater tendency for students to miss scheduled examinations. Students who miss examinations often request that they be allowed to write make-up examinations. This is often unfair to those who wrote the scheduled examination and time-consuming for the instructor who is asked to prepare alternative examinations.

In an effort to be consistent within Financial Management, the Department has adopted the following policy to deal with mid-term and final examinations.

It is imperative that students write examinations on either the scheduled day per the course outline or the date and time as determined by the Registrar during the formal examination periods. Please make a note of the following Departmental policy:

Subject to circumstances outlined below, a student who fails to write an examination on the scheduled date and time will receive a zero on that examination.

Other than in emergency situations, a student must provide his/her instructor with a reason acceptable to the instructor for missing an examination at least 24 hours prior to the scheduled time of the examination. Should such notice be given and should the reason be acceptable to the instructor, the student may, subject to the discretion of the instructor, be permitted to either write an alternative examination or have an agrotat mark established. It is the student's responsibility to contact the instructor by phone, fax, e-mail, etc.

It is impossible to list every acceptable reason. However, for greater certainty, reasons such as being unprepared or having too many other examinations in the same week will not be accepted. Written documentation, i.e., doctor's notes, will be required in all cases of missed examinations.

Instructors are asked to promptly notify the program head or the academic coordinator of any student who misses an examination together with any supporting documentation.

PHOTO IDENTIFICATION: To write exams, students are required to produce photo-identification at examination centres. Photo identification must be placed on the desk before an exam will be issued to the student and must remain in view on the desk while writing the exam for inspection by invigilators. Students should bring a BCIT OneCard or alternatively two pieces of identification, one of which must be government photo I.D. such as a drivers license.

CHEATING, PLAGIARISM AND DISHONESTY: Acts of cheating, plagiarism and dishonesty are not tolerated; the degree of punitive action may range from a written warning to withdrawal from the program. These penalties may also be applied to a student who knowingly contributes to the act of dishonesty, cheating and plagiarism. (Refer to the current BCIT Calendar.)

Programmable calculators and calculators with alphabetic capability **will not be allowed** in exams. English language dictionaries **will be allowed** in exams provided they are presented to the exam invigilator prior to the exam.
