Prerequisites

MRAD 2200 is a Prerequisite for:

Course No.: MRAD100

Course Name: Clinical Experience

Course No.: MRAD 3300

Course Name: Clinical Education

Course Record

Developed by: _____
Instructor Name and Department

Date: _____

Revised by: _____
Instructor Name and Department

Date: _____

Approved by: Ann McMillen
Associate Dean / Program Head

Start Date: _____

Course Description

To provide students with clinical experience in the hospital setting. Learning contracts are used for this and the succeeding courses (MRAD 3300).

The student must complete one clinical positioning contract and the Equipment and Processing Contract and obtain a grade of at least 60% while demonstrating professional conduct and attitude. Students select their clinical positioning contract from the following:

1. Upper extremities, thoracic cage, shoulder girdle and spine
2. Lower extremities and pelvic girdle
3. IVP procedures, chest and abdomen, or
4. Fluoroscopic procedures.

It is the student's responsibility to document the necessary activities and obtain the required signatures for work completed. The student's hospital rotation will be designed to allow for achievement of the specified objectives in each contract.

Evaluation

One clinical positioning contract of the student's choice together with the Equipment and Processing Contract must be completed and a course mark of 60% must be achieved for successful completion of this course.

Credits for the course will be allocated as follows:

25 credits for the completed required positioning contract.

25 credits for completion of the Equipment and Processing Contract.

15 credit for Attitudes and Behaviors.

1 credit for every 5 U or A cases (Obj. 3-8) entered in the 3 remaining contracts (maximum 15 credits).

1 credit for every 6 Unassisted cases entered on the Unassisted Additional Credit Record (maximum 10 credits).

1 credit for every 10 U or A cases entered on the Work Experience Record (maximum 10 credits).

-5 credits for every repeat clinical evaluation required.

-5 credits for each and every discrepancy or inconsistency with the Student Policies.

-2 credits for inappropriate goal setting.

-5 credits for each missed Department Orientation objective evaluation.

-2 credits for tardiness

Course Outcomes and Sub-Outcomes

Upon successful completion of this course the student will be able to:

1. Prepare the radiographic room for the examination to be done.
2. Provide satisfactory patient care for all patients associated with the contracted area with the exception of trauma patients.
3. Communicate effectively with the patient prior to and during the examination.
4. Interact appropriately with all members of the health care team.
5. Apply satisfactory positioning technique skills for all examinations of the contracted area.
6. Handle the required equipment in a competent manner.
7. Carry out acceptable radiation safety precautions for patients, staff and self at all times.
8. Document information as necessary for each procedure carried out.
9. Competently critique radiographs associated with selected contracted area.
10. *Organize* work effectively.
11. *Demonstrate professional behaviors and attitudes.*

Course Outline **Part B**

MRAD 2200 Clinical Education

Effective Date

September, 1996

Instructor(s)

Rita McLaughlin, ACR

Valerie Palm, ACR

Gisela Paches, ACR

Shelly Virk, RTR

Office No.: SW3-4077, 4076

Phone: 5417 & 5750

Office Hrs.:

The student will gain experience under the **direct supervision** of the instructor/hospital technologist.

Text(s) and Equipment

Required:

Clinical Education Notes MRAD 2200/3300

Clinical Education Workbook

Equipment

1. R and L markers
2. Tape measure
3. Pens, felt tip and ballpoint
4. Bit card
5. Uniform and shoes as detailed in the Clinical Education Manual
6. Name tag, level pin, TLD
7. Student clinical positioning notebook
