v Course Description

This is the first section of the two-part Patient Care course designed for Medical Radiography students. The scheduling of content and classes is designed to complement the theory and skills required by the student in classes and practicum experiences offered through the Medical Radiography Department. This course is offered through the Bachelor of Technology Nursing Program.

v Detailed Course Description

The purpose of this course is to provide students with knowledge and skills required to provide patient care in the Radiology department. In-class assignments and supervised laboratory activities are designed to give students opportunities to apply their critical thinking and manual skills to a variety of patient care situations.

v Evaluation

Midterm Exam #1	25%
Midterm Exam #2	25%
Final Exam	50%
TOTAL	100%

Comments:

To successfully pass this course, the student must:

1. achieve a course mark of 65% or better.
2. successfully complete the Student Progress Sheet.
3. complete all assignments.

v Course Learning Outcomes/Competencies

Upon successful completion of this course the student will be able to:

1. Communicate significant data to other health care personnel.
2. Assess patients and collect relevant patient information prior to performing diagnostic procedures.
3. Explain the required interventions when working with:
 - a. patients experiencing pain, drowsiness, nausea, vomiting, vertigo and syncope.
 - b. patients who have a physical disability related to a cerebral vascular accident, arthritis, a hearing impairment, or impaired vision.
 - c. patients who have pressure sores.
 - d. a hospitalized patient who experiences a cardiac arrest.
 - e. a patient who is in shock; is hemorrhaging; and/or who experiences a myocardial infarction, a seizure, or a diabetic reaction.
4. Use Standard Precautions (routine precautions/BSP/medical asepsis) and isolation protocols appropriately.
5. Maintain safety and comfort for the patient, colleagues and self when:
 - a. using stretchers and wheelchairs.
 - b. moving, positioning, lifting and transferring.
 - c. working with patients who have tubes inserted and/or are attached to specialized equipment.
6. Use surgical (sterile) asepsis when performing the following procedures:
 - a. drawing up solutions from ampoules and vials.
 - b. discontinuing an intravenous.

v Learning Resources**Required:**

Selected required readings from the following texts:

Kozier, B., Erb, G., Berman, A., Burke, K., Bouchal, D., & Hirst, S. (2000). *Fundamentals of nursing: The nature of nursing practice in Canada* (Canadian Edition). Toronto: Prentice-Hall.

Kozier, B., Erb, G., Berman, A., & Snyder, S. (2004). *Fundamentals of nursing: Concepts, process, and practice* (7th. Ed.). Upper Saddle River, NJ: Pearson Education.

Packets containing the required text readings are available on reserve in the library under the following:

Call number	NURS 1180
Title	1180 Patient Care Readings
Instructor	Elaine Fraser

Supplemental:

The following texts may be useful in preparation for the CAMRT Certification exams. The content is in less depth than required for this course however it will serve as a quick overview and refresher in preparation for the exams.

Ehrlich, R., McCloskey, E. and Daly, J. (2004). *Patient Care in Radiography* (6th ed.). St. Louis, MO: Mosby.

Torres, L., Norcutt, T. and Dutton, A. (2003). *Basic Medical Techniques and Patient Care in Imaging Technology* (6th ed.). Philadelphia, PA: Lippincott Williams & Wilkins.

v Information for Students

Assignments: Assignments must be done on an individual basis unless otherwise specified by the instructor. All in-class assignments must be completed and submitted. If the student is absent when an assignment is due a remedial assignment will be made available for completion and submission.

Makeup Tests, Exams or Quizzes: There will be **no** makeup tests, exams or quizzes. If you miss a test, exam or quiz, you will receive zero marks. Exceptions may be made for **documented** medical reasons or extenuating circumstances. In such a case, it is the responsibility of the student to inform the instructor **immediately**.

Ethics: BCIT assumes that all students attending the Institute will follow a high standard of ethics. Incidents of cheating or plagiarism may, therefore, result in a grade of zero for the assignment, quiz, test, exam, or project for all parties involved and/or expulsion from the course. Incidents of abuse of information technology may result in expulsion from the course.

Attendance: The attendance policy as outlined in the current BCIT Calendar will be enforced.

✓ **Information for Students (cont'd)**

Illness: A doctor's note is required for any illness causing you to miss assignments, quizzes, tests, projects, or exam. At the discretion of the instructor, you may complete the work missed or have the work prorated.

Course Outline Changes: The material or schedule specified in this course outline may be changed by the instructor. If changes are required, they will be announced in class.

Note:

This course utilizes self-contained modules, lectures, group discussions, co-operative learning, demonstration and laboratory practice to present the required course material. This course is designed to enable the student to understand, describe, and implement common and specific patient care skills in order to care effectively for patients in the Radiology department.

The student is expected to complete all assigned readings prior to the designated class time and to come to class prepared to discuss and participate in a constructive manner.

Assignments are designed to assist the student to integrate patient care skills into the work and routines of the Radiology department.
