COURSE DESCRIPTION

If your first language is not English, and your language skills need upgrading before you can enrol in COMM 0005, this course is for you. It includes the speaking, listening, writing, and reading skills needed to carry out writing and speaking tasks in COMM 0005 and in other BCIT courses. In this course, you will learn about the programs offered at BCIT. As you read, write, and talk about these programs, you'll cover areas such as classification, cause and effect, comparison and contrast, and process descriptions. Classes will include lessons on specific grammatical structures; you'll learn to recognize and correct errors in your own work, as well as in other students' work. Follow-up activities include the reading, speaking, writing, and listening tasks requiring the use of these structures. A grade of 65% in this course meets the prerequisite for COMM 0005.

Successful completion of this course will give you the speaking, writing, reading, and listening skills you need to succeed in COMM 0005.

COURSE ASSIGNMENTS

Writing Assignments

You will write a minimum of 10 graded assignments for this course. In addition, you will be given homework to help you practice the skills you learn in class and to prepare you for upcoming classes. Anyone wanting extra practice should see me about additional homework.

You are required to complete all assignments -- practice and graded -- for this course as well as write the midterm and the final.

In-class assignments must be completed and handed in during the class in which they are given. Any take-home assignments must be submitted at the beginning of the next class.

If you miss an in-class assignment, it is your responsibility to arrange with the instructor to write it in another class or at another time under the instructor's supervision. If you fail to do so, you will receive a grade of zero for the assignment. Unless you have obtained an extension before the due date, you will be assessed a late penalty of 10 % per day for late assignments. Assignments received three working days after the due date will receive comments but no grade.

Speaking Skills

The speaking skills mark of 10% is based on one or two oral presentations you will give individually on a topic related to BCIT.

Professionalism

BCIT prides itself on the professionalism of its students, who are welcome in any workplace because of their proven ability to show up and do the job in a way that earns the respect of their co-workers and supervisors.

To reward you for meeting these workplace standards, evaluation for this course includes a 5 % grade for professionalism and participation. To get a full 5 % for professionalism and participation, you'll have to

- submit all assignments on time or obtain an extension before the deadline
- attend all classes or explain your absence the same way you would have to excuse yourself for not being able to come in to work
- treat each other and your instructors with courtesy and consideration
- contribute to the success of your course by participating actively in every class.

BCIT Attendance Policy

Students who are absent for any reason, other than substantial illness, for more than 10% of the time prescribed for the course, may not be allowed to complete the course (page 3, 1995/96 Full-time Calendar).

TEACHING METHODS

We will be using teaching methods which have proven most effective for teaching students at BCIT:

1. **Teamwork.** Just as in all courses at BCIT, you will be working in small groups. This will allow you to develop the interpersonal skills you need to succeed at BCIT and in the workplace. You will also learn more in groups as you teach and support each other.
2. **Peer-editing.** We will spend the first part of each class editing student writing. As well, you'll work with one or two partners to locate and correct errors in each other's work
3. **Explaining in your own words.** You'll be reading from textbooks, case studies, and handouts and then putting the ideas into your own words. You will know you have gained knowledge and language skills when you are able to explain the ideas clearly to your team members and to your instructors.
4. **Key visuals.** You will learn how to express ideas in graphics (primarily tables and classification trees). These graphics, which we call "key visuals," will help you to understand ideas and present them more clearly to others.
