

Dicot Stem

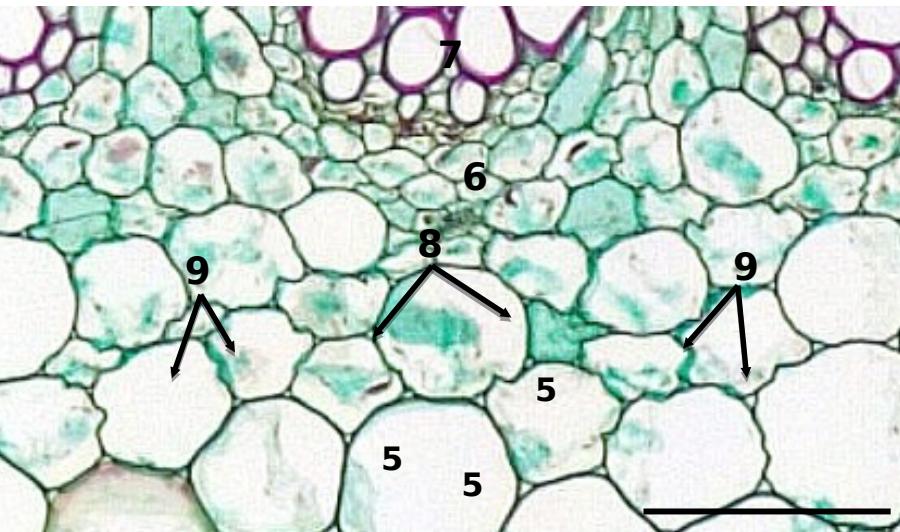

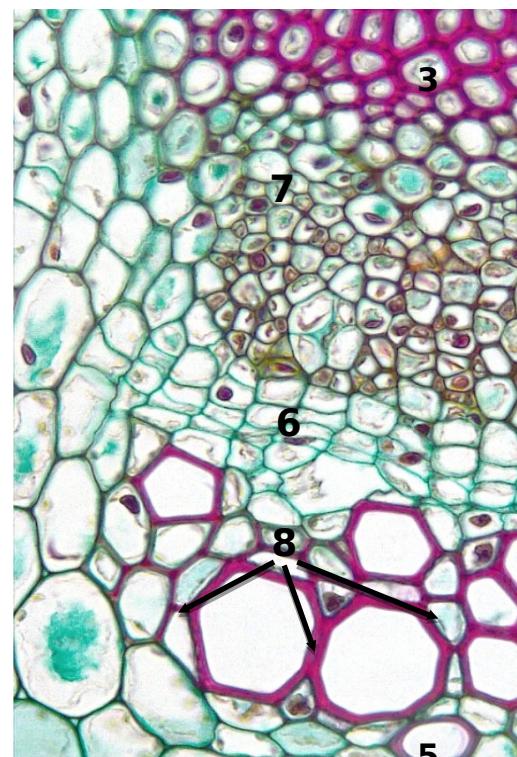

Helianthus (Sunflower)

1. Epidermis
2. Collenchyma
3. Cortex
4. Vascular bundle
5. Primary xylem
6. Primary phloem
7. Primary phloem fiber
8. Fascicular cambium
9. Interfascicular cambium
10. Pith

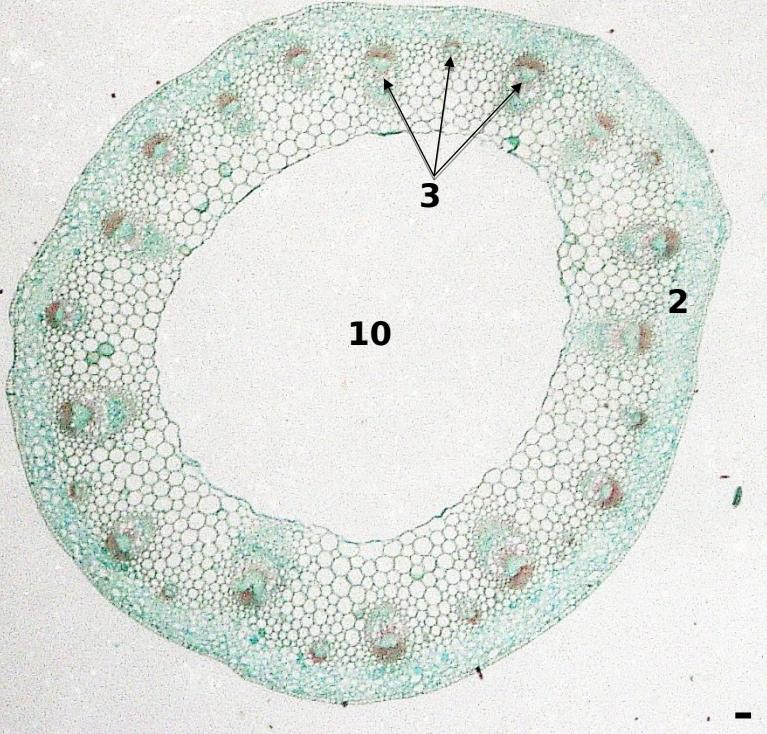

Transverse sections

Bar = 100 µm on Lai and Carol Wenzel, 2020

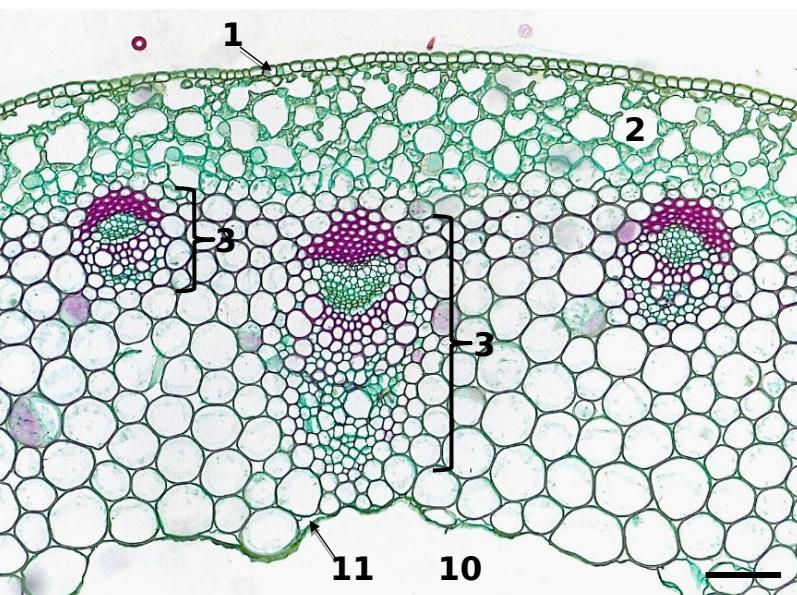

Dicot Stem

1. Epidermis
2. Cortex
3. Vascular bundle
4. Protoxylem
5. Metaxylem
6. Xylem parenchyma
7. Primary phloem
8. Primary phloem fiber
9. Fascicular cambium
10. Pith region
11. Pith cell remnant
12. Guard cell
13. Stoma
14. Substomatal cavity

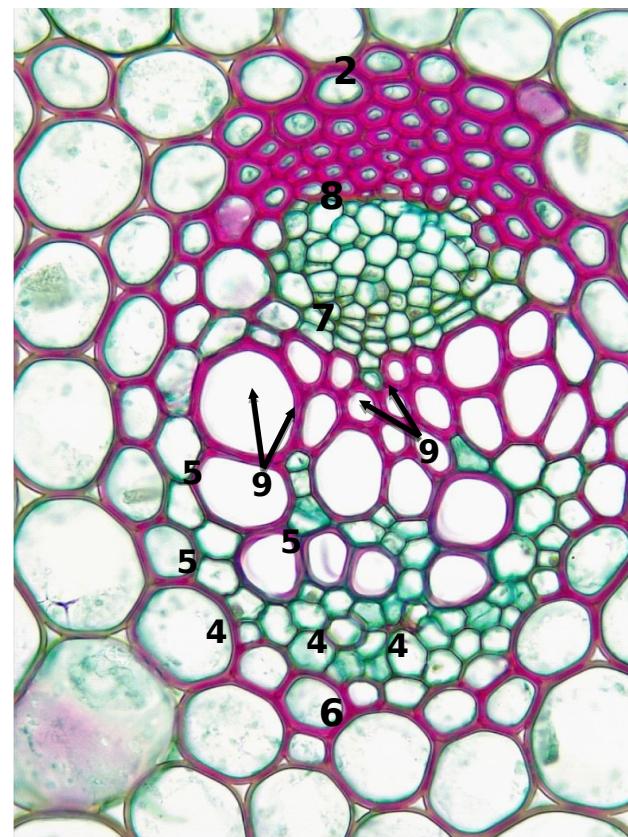

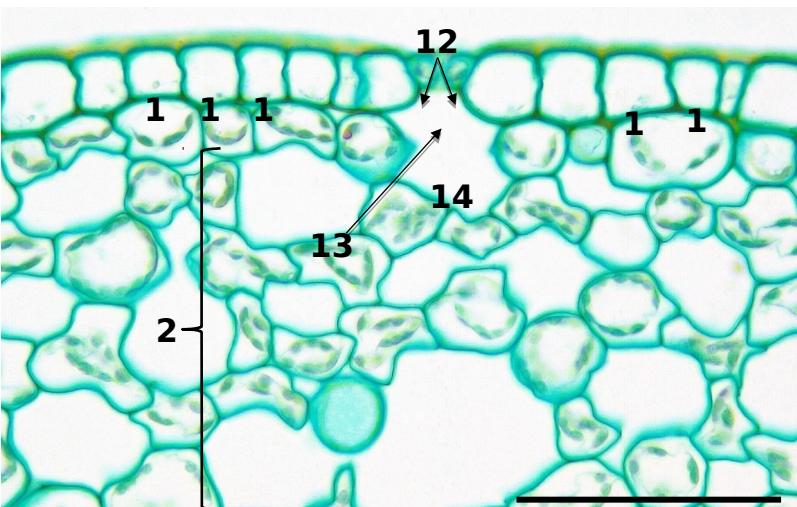

Transverse sections

Bar = 100 µm

on Lai and Carol Wenzel. 2020

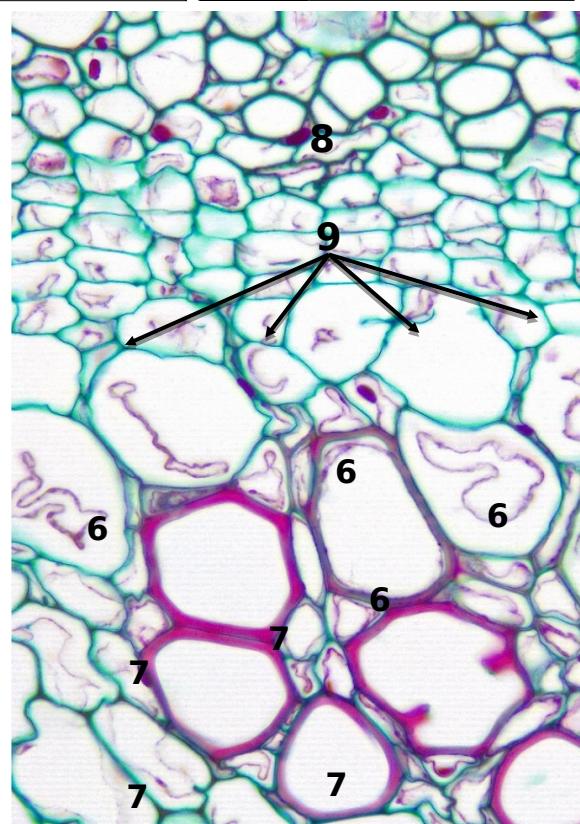

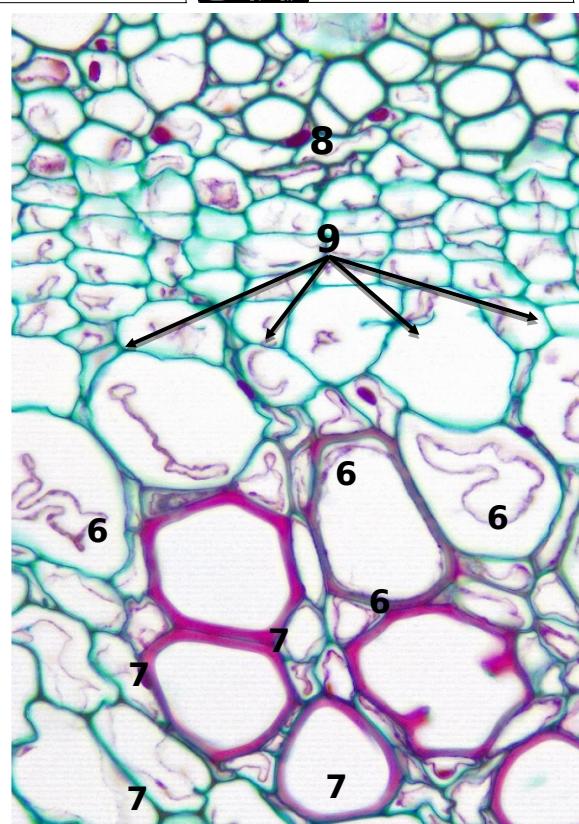

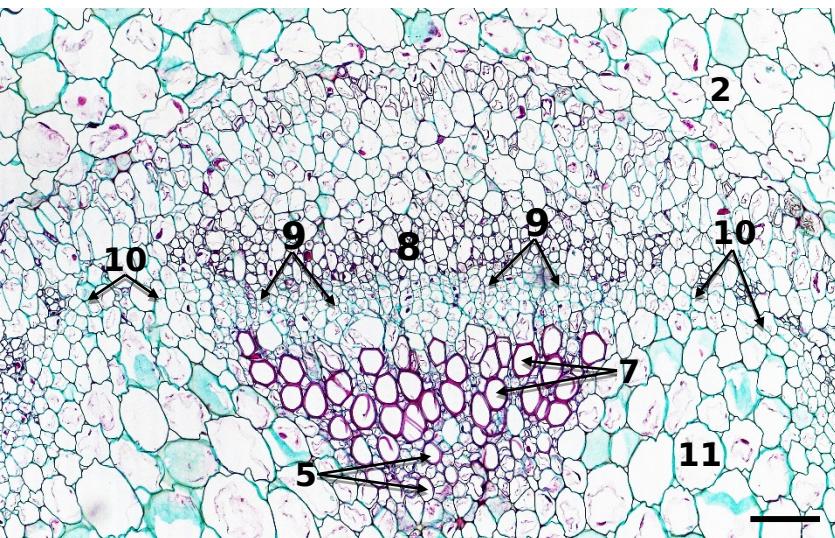

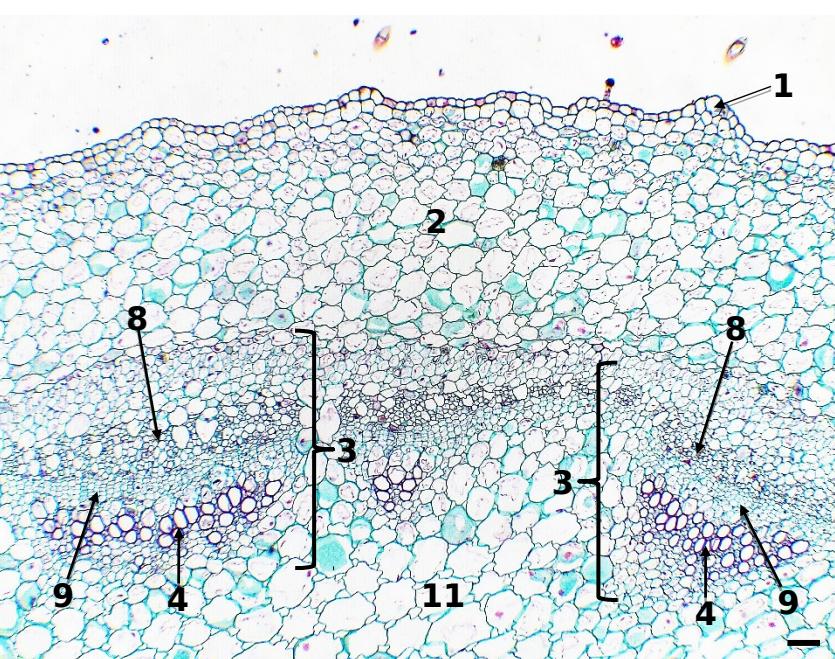

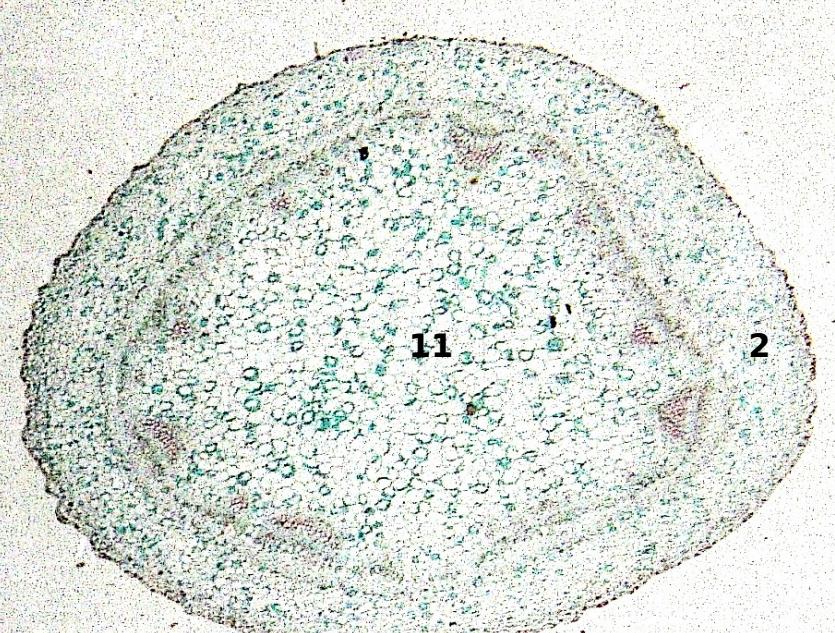

Dicot Stem

Pelargonium (Geranium)

Immature

1. Epidermis
2. Cortex
3. Vascular bundle
4. Primary xylem
5. Protoxylem
6. Immature metaxylem
7. Mature metaxylem
8. Primary phloem
9. Fascicular cambium
10. Interfascicular cambium
11. Pith

Transverse sections

Bar = 100 µm on Lai and Carol Wenzel, 2020
