This Self-Guided Plant Identification Map is georeferenced to be used with free navigation programs such as Avenza PDF Maps. Download the PDF and open it on a mobile device to follow along and find each plant.

It is recommended to bring along a plant identification field guide such as Plants of Coastal British Columbia (Pojar and MacKinnon) to learn more about the plants as you locate them.

Thank you to the BCIT Open Education Grant Program for providing funding to create these maps!
