

# Self-Guided Plant Identification Walk: New Westminster - Glenbrook Ravine Park

This Self-Guided Plant Identification Map is georeferenced to be used with free mobile navigation apps such as Avenza PDF Maps.

Download this PDF and open it on a mobile device to follow along and find each plant.

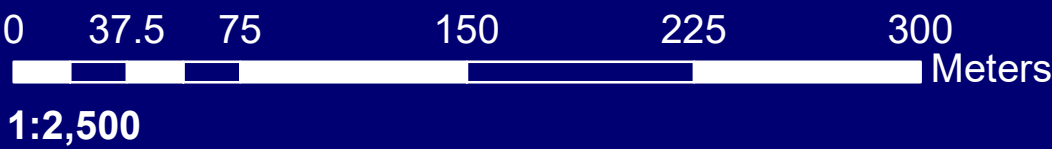

It is recommended to bring along a plant identification field guide such as **Plants of Coastal British Columbia** (Pojar and MacKinnon) to learn more about the plants as you locate them.

Thank you to the BCIT Open Education Grant Program for providing funding to create these maps!
