 Map Date: June 10, 2021  
 Point features collected by Julia Alards-Tomalin, June 2020

**This Self-Guided Plant Identification Map is georeferenced to be used with free navigation programs such as Avenza PDF Maps. Download the PDF and open it on a mobile device to follow along and find each plant.**

**It is recommended to bring along a plant identification field guide such as Plants of Coastal British Columbia (Pojar and MacKinnon) to learn more about the plants as you locate them.**

**Thank you to the BCIT Open Education Grant Program for providing funding to create these maps! This and more can be accessed at <https://open.bcit.ca/grantprojects>**
